Hello everyone,

I upgraded my account to L33T. But I am still not able to post in Premium Marketplace section.

I got denied.

I took the upgrade as a normal process like I got the L337.

The suspected reason for denial was not enough marketplace history.

Can I still post in marketplace without Vendor ? Just so I earn credibility reputation ?

As noted above, you must be an authorized vendor to post there.

Build up profile and apply again next time. Best of luck!
