Thread: [TG HUNTER 2.0 - Software for promotion and work in Telegram](#)

AndyHunter - April 13, 2024, 3:05 pm

TGHunter - Telegram marketing software automates various tasks associated with managing and promoting your channel or group.

Parsing, Sending messages, Inviting to groups, Multithreading

Let's look at the software features that you will use for your purposes.

- ACCOUNTS

A wide variety of individual settings and profile editing, as well as creating groups or channels on accounts

- PROXY

Support for a large number of proxies, this will extend the life of your accounts.

- SPAMMER

Sending messages to a list of Telegram users. Large functional settings, call function.

- COMMENT MAILING

Commenting on messages in group chat

- INVITER/MULTI-INVITER

Adding to a user group, or to several groups at the same time

- ADMIN INVITER

The administrator invites users to a group or channel

- MAILING

Sending messages to a group chat or multiple chats at once

- SPAMBLOCK

Sending an appeal to remove a spam block

- PARSER

Collecting users from the group you need

- GEO-PARSER

Collection of users by location coordinates

Each function has a large number of settings, time, limits, quantity. You can work with a large number of accounts or groups in multi-threaded mode. Fast and reliable software, with 24/7 technical support. Take advantage and you will not remain indifferent.
