Thread: [Who is the infamous Dyne? And what happened to him?](#)

Mooooookie - April 14, 2024, 5:08 pm

I see his name referenced around the forum a lot. Who is he? And what happened to him? I'm guessing he was pretty popular on HF if his name made it into the popularity reasons. But the real question is, why is he no longer here? I see someone created an account with the username Dyne on Jan14, and never came back online. Was that him?? Is this a real person... a previous user?? Or just a forum Myth? Love to hear what the OGs have to say about this one..

Because its a function of the forum, and I like to make use of the different functions.... but tbh, what color my text is should be the last thing on your mind, finding out wtf Dyne is, and what happened to him is the only thing important at the current time!!!!

He left and had his account purged for a reason.

I'd close this thread.

Yep, as Komodo said. He left HF and had all his information purged and wiped.

He is no longer in this place. Why those profile colors?

Profile colors? Didn't know profiles could change colors. Whatever color it is, is the color it is... why does it matter? Is there a Gang problem on the forum I'm unaware of?

I'd close this thread.

Is it forbidden to speak about him? I mean, if his name is in the popularity ratings, I didnt think inquiring about someone was an issue, feel free to close the thread.
