Scanning is allowed, the Dedis might be a better option for that tho, These VPSs aren't your prime scanning servers.

As of RIGHT NOW, I have,

Intel Xeon E3-1270 V3 - 500G SSD - 32GB DDR3 (\$60/month)

2x Intel Xeon X5650 - 500GB SSD - 64GB DDR3 (\$75/month)

For any higher-end servers you are looking at 200-450/month.
