Thread: [\\$1 Bitcoin Cash Reddit Comment Upvote](#)

**Skullhead** - April 19, 2024, 3:23 pm

Update: Paying Bitcoin Cash now instead of PayPal, probably easier for all

Need 5-10 people, but I'm going to space out the upvotes, so if you comment and I don't get back to you right away, just wait a bit.

There will be a few steps you'll need to take to give the upvote a better chance of sticking/make it look legit. Will send the full instructions in a DM. Shouldn't take you more than 5 minutes overall to complete.
