Thread: [HF's 17th anniversary \(and...\)](#)

Hackers - April 21, 2024, 5:04 am

It's HF 17th's anniversary today!
[... and my birthday]

What are you doing to celebrate (my birthday) today? :)

17 years a long time on this internet, and my god 30+ on this planet for me is even longer! :)

to celebrate I will be having a good day with the fiancée, including a nice meal hopefully, but we'll see what she stirs up (once she's awake).

Jamika - April 21, 2024, 5:12 am

Thank you to all of you!!

I think I may have gotten more replies here than on my Facebook lol.

... Yep, got 5 posts there. I don't really use FB but man ... Nice job HF!!! <3 I'm not surprised, I invest more time into relationships on this forum than in non-coworkers IRL.
