Thread: [Hosting Serivce Recommendation](#)

simonknight10 - April 22, 2024, 12:55 am

Hi Community.

I am looking for a good hosting on market which allows opening ports and has port 25 opened and affordable.

I kept looking on market and most seemed to have smtp port 25 closed.

Thanks.

Hello,

Thread creation in the marketplace is limited to upgraded members, but you can check the following section

[Hosting Services](#)

By the way, if you plan to deal on HF, please read the [Help Docs](#), especially the part about the marketplace (contracts, b-rating / credibility, middleman, and so on).
