Thread: [Airdrop farming for crypto traders small investment good potential](#)

titi - April 24, 2024, 4:51 pm

Hello HF,

Zeta Markets the #2 DEX on SOL second airdrop season is live for the crypto traders
They have quite some volume and want to reward active traders.

You earn Z-Score based on your trading activity on Zeta.
The more you trade, the larger your Z-Score. The larger your Z-Score
The amount of Z-Score will determine how much tokens you will get airdropped.

So how to do this with minimal risk or a small amount of money?

My strategy is to hedge my position i take on zeta on jupiter exchange perp to offset the risk and farm both airdrops at the same time.
For example i take a 10 X leverage on zeta long SOL and on Jup i do the opposite , leverage gives you more points on zeta aswell.
Jupiter exchange also has an ongoing airdrop on trading and swaps made (i claimed 1200 JUP in season 1)

If you have question or need help please let me know

Join with my ref link for 10% bonus points for Zeta Market -> [zeta markets](#)

You can sell Z score points on whale markets (pre airdrop) -> [whale markets](#)

Link to Jupiter Exchange to take hedge position -> [Jupiter exchange](#)

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
