Thread: [CSRDP.HOST - Servers in Europe with AMD EPYC 9454 and NVMe SSD / Unlimited workload](#)

CSRDP - April 24, 2024, 6:26 pm

Purchases can only be made through the website

Virtual rates are based on powerful AMD EPYC 9454 up to 3.8 GHz.
All VPS are located in Europe and have network speeds up to 1Gbit/s

Operating systems available for installation:

Windows 11/10, Windows Server 2022, 2019, 2016, Ubuntu, CentOS, Dedian, Alma, Oracle and any other from your ISO image

Prices

Virtual servers start from 5€/month

Dedicated servers start at 70€/month

Order preparation time

After payment, your virtual server will be ready within 60 seconds, depending on the operating system you have chosen.

The maximum preparation time for a dedicated server is 72 hours; on average, preparation takes 8-12 hours.

Technical support

If you have any questions while using the service, we will help you. Create a request on the website in the "Support" section or write to us in Telegram.

You can use almost any cryptocurrency to pay for services.

Welcome!

Do you want your website to fly into the sky and attracted more and more clients?

You need hosting!

Why us?

- Powerful AMD Ryzen 9 5950X servers: your website will run like a rocket, and any tasks will be solved instantly.
- European location: your European customers will enjoy the best download speeds.
- Fast Internet up to 1 Gbit/s: no delays or restrictions, only stable and high-speed operation.

P.S. Using the promotional code "HACK" all customers receive a 20% discount!

zelus - July 20, 2024, 7:25 am

Is spamming allowed?

CSRDP - August 1, 2024, 4:11 am

We are pleased to announce that we have completed technical work aimed at improving connection quality and network stability on our virtual rates!

During the work, not a single server was disabled, and we added a lot of new equipment. Thanks to this, your server will begin installing the OS immediately, even with a large order!

In honor of this event, we give you a 20% discount on all virtual rates!

Hurry up to take advantage of the promotion!

Order a server: [csrdp.host](#)

Tested this from start to end, did not find anything bad to say. This is a good hosting. Here's what I did and concluded:

The signup and ordering process was simple, had my hosting online instantly, and the client area is very easy to understand:

Spoiler [\(Click to View\)](#)

Installed Ubuntu right away, updated, and installed my favorite Control Panel without problems:
Spoiler ([Click to View](#))

Setting up nginx, php-fpm, mysql went smooth quick and no issues. Did setup 3 websites on the server at the same time, and performance is relatively good. Every website is using a different PHP Version.

Spoiler ([Click to View](#))

While testing out server I did restore a 10 years old project I coded when I was just starting out using PHP 5.4 (it was recently released).. that was a fun little experiment and nostalgic :)

CSRDP - November 9, 2024, 3:23 pm

does the port 25 open?

CSRDP - December 27, 2025, 1:07 pm

(Feb 10, 2025 01:45 PM)S2K Wrote: [\[CITE\]](#) does the port 25 open?

Hello, no, we do not support SMTP ports

CSRDP - December 30, 2025, 5:03 pm

We have updated the project functionality by adding automatic installation of popular panels and tools.

Now you can install everything you need in just a few clicks:

3x-ui, Outline VPN, WireGuard for quick personal VPN setup

FastPanel for easy website management

TeamSpeak for comfortable communication without Discord

This update makes server setup easier and saves your time. Everything is ready to use right after activation.

Write to our support on the website csrdp.host, we will give you a promo or test period

CSRDP - February 6, 2026, 10:27 am

Using hosting in winter has become more profitable ?

Dear customers,

? We are launching a winter promotion on virtual servers! You can get a 20% discount on all VPS plans in the Netherlands.

Launch your VPN, host a website, or install software that requires 24/7 operation.
Activation takes just 60 seconds!

?The promotion may end at any time.

Best regards,
the CSRDP team ?

InsideProxy - March 21, 2026, 2:49 am

hello, you get storage server?

CSRDP - March 21, 2026, 5:27 am

Hello, on a virtual server you can expand the disk up to 600 GB, and on dedicated servers up to several TB. If you need 10 20 TB, we can offer to add an HDD to a dedicated server, to do this please contact support on the website.

Stanley - June 5, 2026, 4:33 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
