Thread: [Burned 1000 bytes](#)

Pr0m3th3us - April 27, 2024, 12:29 pm

I used 1000 bytes to get my hack eggs hatched and upgraded just to have @DemonAsylum kill them all within hours...again. ???

Seriously tagging on this forum is impossible on mobile...

Undead - April 27, 2024, 12:32 pm

I've heard this story before...

Listen man.. you wanna talk about it? I lost 10k+ bytes last night playing slots. I was up to 15k, was the top slots winner for the past 24 hours.. but didn't stop when I was up, and kept going until I was down to like 2.5k

Fun experience nonetheless. :\

Funny thing is, I've heard all the horror stories of people losing large amounts of bytes gambling on the different games on the site, and while I have played a couple of the games.. I've never really "went in" like how I did yesterday. I played for about 30-40 minutes, and was actually having fun.

Yin Yang - April 27, 2024, 12:55 pm

It's a ruthless game, that's for sure

Deany - April 27, 2024, 1:19 pm

I woulda used those on sportsbook

TooBurnt - April 27, 2024, 1:26 pm

Bytes will soon be worth \$1 with all this degeneracy.

Blogger - April 27, 2024, 1:49 pm

Yep, that's how it works. It sucks you in. You spend a shit ton of bytes then lose it so you have to post to get it back. It's a win win.

Chung - April 27, 2024, 2:21 pm

[DemonAsylum](#) did that to me too but I'm sure he's a good guy.

iowmuos - April 27, 2024, 3:02 pm

Brah that's agg fr I need a hacknum egg and need some byted

SpiritualDose - April 27, 2024, 3:12 pm

I've gambled around 60k bytes in the last 72 hours.. lol I'm in pain

Perfect - April 27, 2024, 4:25 pm

Yeah I lost 2k bytes yesterday. Ripped zipped now I gotta reload!
How's the day reading you ?

It fucking sucks.
That's a good call actually, better then loosing my bits in coinscrash

HAKUMAN BOOGIEMAN - By OPSEC

<https://suno.com/song/cb3ef8ef-b51e-4256-afe4-022d83af0d19>

LYRICS:

(Verse 1)

Yo, listen up, gather 'round, let me spin a tale,
'Bout a digital demon, straight outta the dark vale,
Hackforums home to a shadowy figure,
Known as DemonAsylum, a digital trigger.

Lurking in the forums, with a sinister grin,
Hakuman boogieman, with a devilish spin.
Calculating moves, with precision and flair,
Leaves no trace behind, just digital despair.

(Chorus)

DemonAsylum, the name that sparks fear,
Hakuman boogieman, when he draws near.
Merciless in his code, heart cold as ice,

Slaughtering in silence, a digital sacrifice.

(Verse 2)

He's the phantom in the wires, a master of disguise,
Hunting in the dark, where only darkness lies.
No mercy in his keystrokes, no pity in his byte,
He'll hack into your life, and turn off the light.

Thousands fall victim to his virtual spree,
Their lives shattered by his hacking spree.
But when the chaos settles, and the dust clears,
DemonAsylum laughs, echoing in our fears.

(Chorus)

DemonAsylum, the name that sparks fear,
Hakuman boogieman, when he draws near.
Merciless in his code, heart cold as ice,
Slaughtering in silence, a digital sacrifice.

(Bridge)

He's the nightmare of the web, the ghost in the machine,
A hacker's enigma, a digital fiend.
No firewall can stop him,

OPSEC

That's actually not a bad idea. I used to hate poker, but that's just because I didn't understand how it was played. But once I learned the different hands, and how to actually play the game, I love it! Would be cool to see HF get poker in the future.
