I am looking to hire someone to make some basic youtube videos for a specific niche.
I am also looking to hire someone to do channel promotion and management.

I can hire two people, or one, just depends on your price and skillset.

I am open to discussing here via pm or dm, on telegram : SoftcoreEXE or discord : softcore.exe

What is your channel niche about?

And for the videos, how many do you need frequently? Once a week?

I had a lot of luck on Fiverr with people for this at an affordable rate! Good luck, hope you find someone.
