Evanescence - Bring Me To Life

Avicii - Hey Brother will always be one of my favorites

**Deany** - April 29, 2024, 8:39 pm

Shouldn't this be in music section lol

**DemonAsylum** - April 30, 2024, 2:00 am

Like Deany said above me, I feel like this should be in the music section haha.

Also while I used to love Bring Me To Life, I can't stand that fucking song anymore lmao. Have just heard it WAY too much now. I think we all have songs like that though.

God damnit I knew this was one of those fucking overused tiktok songs smh. Obviously the song came out a long time ago and so before that, but still. Just makes it get overplayed to all hell.

Can confirm that's a certified banger right there. Let me go ahead and put that on right now honestly.

Bounce around a little, then move on to something else.

Sounds kinda naughty. I fuck with it. Solid vibe.

Is this like you, a friend, or a local artist or something? I looked it up and the top video for it had pretty low views and then subs on the channel for it. Didn't seem like a big song/artist elsewhere either.

God's gonna cut you down - Johnny Cash

I don't listen to Cash much anymore, but he's got some damn good songs that I used to often enjoy listening to.

**spamcop** - April 30, 2024, 11:59 am

I am sorry that I put it in wrong section, but thanks for all yours suggestions anyway. For me also these songs are top (some could suggest these are too soft songs, but I like them anyway):

Ellie Goulding - Lights

Imagine Dragons - Radioactive

Kosheen - Wish

Yeah, Cash might not be the greatest singer but he's got some great songs.

Agreed. Maybe it's partially or more just due to my preferences, but I've heard some incredible singers while not liking much if any of their music. I can appreciate that talent and skill, but it doesn't guarantee I'll like their music. On the flip side I've heard some singers that don't necessarily blow me away and that definitely aren't on that same par of talent and skill as many others, but that for whatever reason have music that clicks for me.

Eran - April 30, 2024, 2:53 pm

Basically all of NF songs.

Imagine Dragons are great, but Radioactive is another song that's just been overplayed on my end too much for me to care to listen to it much these days haha.
