Thread: [Certification Pass](#)

certgod - May 2, 2024, 8:38 am

Hello HF,

Recently I've created a business passing peoples certification test. Well, I'm trying to get my foot in the door here at HF.

With that being said, I have a 2 vouchers for a CompTIA A+ exam and I'm wanting to do this for someone for FREE if you are interested in a risk free certification, leave a reply and I'll pick a winner :)

Thanks,
CertGod

Nice giveaway, too bad that it's not available for Sec+ :p

Don't forget to check the [Help Docs](#), especially the marketplace section, there are specific rules and features if you plan to deal on HF.

Thanks for the community and good luck with your future sales !

I am totally interested! Count me in! But, already have a voucher already. If you can take my test for me like AzureGod would be great!

I might do some cert in near future as once my company start rolling free exam vouchers (for CLOUD Aws/Azure) but i beleive the exam would be on PersonVue

Do you also have a cheat to drag me to the passing line risk free

Absolutely, all you do is check in and sit back and watch the screen.

My method is hand crafted and 100% risk free. :)

Definitely would be interested in this, if for any reason to see it in action for myself. I've heard of others doing this, but idk, on top of the certification it just seems like there'd be some level of amusement to be had watching the test take itself while also pretending to take it at the same time, like a rather serious improv game (assuming they still have the whole webcam requirement).
