Thread: [What systems have you integrated successfully?](#)

MantisMastermind - May 2, 2024, 5:05 pm

Hi,

New here. I work in software system design and implementation. I'm interested in learning more about endpoint integrations and RESTful apis.

Welcome to the forum Mastermind.

Not sure I have any experience in the type of systems you're talking about integrating. Are you referring to coding and development? While I have worked with some APIs and integration systems, I still don't feel like we're probably talking about the same thing. Care to elaborate a little more?

Hey [MantisMastermind](#) welcome to HF !

Feel free to ask your questions in the most appropriated sections, try to give as much details as possible.

Don't forget to read the [Help Docs](#),

Enjoy your stay !
