[2000 Bytes] Can't earn slaves? Let's Cut The BULLSH*T Today and Earn 1000s of Slaves

Dynamic's private spreading method

I was going to sell this method on the marketplace for \$500 but I thought to myself why not just give it to everyone for bytes.

By buying this method for 2,000 bytes, you are earning approximately \$495 in like 1 minute because 2k bytes is only worth around \$4-\$5.
