to can inbox mailing you need at least 250 usd budget - need to have good smtps (not blacklisted ip), good text writer, corrector, etc
i can help you if you have the budget

DarkTheater - May 10, 2024, 7:02 am

AWS SES 50K LIMITS + Mailer = INBOX 100%

Stay safe here.

What is the budget for something like this? You sound like you may know what you're talking about, and I need to send some mass mail some to a few targets. If you can aid me with this, you will be

compensated financially.

I have for sale if you are interested smtp servers DKIM signed SPF ready, 10/10 on mail-tester.com . inbox success depends on the letter and destination. Most of the email providers will receive inbox. I can test email deliverability upfront to the specified mx/s server/s. no sending limit.

PM me to discuss more
