Thread: [Freecash Arcade Quick & Easy Money](#)

SuseGD - May 9, 2024, 1:40 pm

Hey all, so I've been looking at the GPT site Freecash specifically for its Arcade system (spinner), and I believe it could be a really quick and easy way to make tons of money fast. I've also decided to make this completely public for free, so if you'd like to support me, like/upvote this post and use my Freecash ref link. Anyways, this is what I found:

--METHOD FOUND BY ME--

If you buy 9/10 of the \$0.11 slots, you have a 90% chance of winning \$1. (Profit of \$0.01, not recommended)

If you buy 4/5 of the \$0.44 slots, you have a 80% chance of winning \$2. (Profit of \$0.26, pretty decent)

If you buy 7/8 of the \$0.55 slots, you have a 87.5% chance of winning \$4. (Profit of \$0.15, I would say this is the best even though you make a bit less, the win rate is much better)

Now the thing about this Arcade spinner system is that you can participate in it indefinitely, as long as you have enough money to actually buy the slots. Let's say that you do this method 10 times, and let's say you only won 7/10 games (highly unlikely, you'll definitely win more than this, but just for calculation purposes). Then you'll be spending \$23.10 but earning \$28, which is a profit of \$4.90 in a matter of 2-3 minutes, which is absolutely insane!

Also, if anyone is wondering, yes I have used this method and I've made \$25+ with it already (It's been about 30 mins since discovering and testing this).

Another benefit of this method is that you don't even need that much money to start with, just get \$5-\$10 and get going!

(P.S. If anyone has any ideas to set up a script to automate this process, please PM me)

Also since I'm making this available completely for free, I'd appreciate it if you could like/upvote and leave a reply.

Here's my ref link if you'd like to support me for giving out this easy method for completely free:

Sounds legit and low risk enough for me to give it a go. I'm new to the site so I hoped I helped you out by hitting the heart button on your post... I can't seem to find a like button. Thanks btw

How do you access the slots / arcade portion on freecash ? Through the app or website ? I can't seem to find it on the app

Hey, I personally do not use the mobile app, so I am not sure if it is available on mobile. But, on desktop through the web version, you can access the Arcade section using the menu on the left. Once you click Arcade, the option at the top should say "Jackpot" with a bunch of wheels, and that is where you want to perform this method. Hope this helps!

Hey, thanks for your interest! I'm not sure how to access it on mobile, as I don't use mobile, but I do know on the desktop website. After logging in, there will be a menu on the left, and from there, click Arcade. Then, at the top of the page, you should see a bunch of spinners, where you can execute this method. Let me know if you need more help.
