Thread: [Tips for new classic wow player?](#)

National Anthem - May 10, 2024, 11:50 am

I'm starting a Classic Cataclysm WoW character. Right now I'm level 11, Night Elf Hunter. I never played WoW when I was younger, nor any MMORPG for that matter.

Any tips for a new player?

No tips as I never got into WoW either when I was younger like many did, but how are you enjoying it? I've considered giving it a try in the past, but it would be something that requires a dry period for me gaming wise as well as some friends wanting to take on that adventure as well haha. Don't think I'd last playing something like this alone and when it's my first time playing no less.

I like it. It's fun to grind quests and now I just got into my professions haha

Used to be in a top 100 guild during Cata. Way too many tips to give you that it would take me a year to do so. If you'd like, you can add me on Discord. Shoot me a PM. Cheers.

Honestly in my opinion, it's way too addictive to keep on playing and monthly subscription fees are crazy ?

Make sure you get a discount for yourself from like g2a or something bro

What's the monthly cost to play? Surely can't be any worse than some other big games out there with monthly memberships.

Uhh the Canadian prices are definitely NOT nice or cheap in any way if you don't go through G2A.

Ahh yeah that is a bit on the higher side. I mean RuneScape membership for instance isn't TOO far off of that, but considering it is just a monthly membership for a game, the price in general is quite something and to even be a couple of dollars (USD) higher than that of RS which is also for RS3 and OSRS is kind of crazy too. Out here paying for another streaming service basically LOL.

A bit on the higher side?? LOL. It's \$18.99 x 13% tax. \$21.45 CAD a month is absolutely insane. You can get a 2 month card for \$15 on G2A or something like that.

EDIT: I just looked it up and it's like \$35 now ?? . I'm never playing WOW again tbh

I mean I'm not in Canada so I don't really know how that price stands versus other shit in that currency. It differs versus US as well haha. Yes though it seems on the higher side ?

I mean that's roughly \$16 USD a month or so. It's still quite high in my opinion to play a game monthly ?

Oh absolutely. You won't get an argument out of me about it being on the high side ?
