I'd be interested to see how this works out once there are some reviews.

Did you do a contract for vouch copies? I don't see any reviews from someone who has benefited from the service.

I see what you mean. I gave them in Free Services and Giveaways, didn't think much about vouch

copies, maybe I should have. They are just basic codes, if you would like, I can send \$100 one, you can test on your own :)

You can check on their site with your postal code if they have partnered restaurants in your area however, most likely they are US service tho.

Did he ever receive it or use it? Curious myself as I didn't see you giving any away. I'll take one and leave a vouch if your interested. I have used the website in the past. It's been a while though.
