Thread: [Apex Legends PC EA | 7 HEIRLOOMS & 2 PRESTIGE HEIRLOOMS \[PS LINKABLE\]](#)

Angel - May 12, 2024, 3:50 am

[PC] EA Account, Level 412, highest rank ever, Diamond 3.

Many legendary skins—too many to write down—recorded 15 minutes of video showing everything, but for now will post only screenshots down below to see if there even any interested buyers.

Heirlooms:

Wraith x 2, Ash, Lifeline, Bloodhound, Octane, and Valkyrie.

Prestige Heirloom: Wraith, Caustic.

I stopped playing a long time ago; I've lost the love and desire to play any video games, busy with life..

Never linked it to PSN account, and few minutes ago I unlinked the account from Steam & Xbox.

BIN: 350 USDT (Or any other crypto, I take crypto only I don't have paypal) MM accepted any trusted one we agree on, buyer covers the MM fee.
