Thread: [Difficult Binary CTF Challenge \(CRACKME\)](#)

Klonopin - May 12, 2024, 9:28 am

Klonopins Difficult CTF (CrackMe Challenge)
Discover the hidden {FLAGS} & Password

Three flags await, elusive to abide.
Two are like whispers, easy to discern,
But one is a puzzle, tough to learn.
And amidst this quest, a password lies,
Locked away, under cryptic skies.

Challenge:

- 3 Flags
- 1 Password

Users who found 1 flag: [AbakBarama](#)
Users who found 2 flags: [AbakBarama](#)
Users who found all 3 flags: NONE
Users who found the password: [AbakBarama](#)
Users who used BytePatching: NONE
Users who completed all tasks: [AbakBarama](#)

Download: [HERE](#)
VirusTotal: [HERE](#)

Binary Infomation:
Code Language: C/C++
Arch: x64
Platform: Windows
Attempt to solve the challenge without bytpatching for an additional challenge :)
IF ANY STAFF WOULD LIKE A COPY OF THE SOURCE CODE CONTACT ME

Good luck to all solvers! I am excited to see how challenging this may be! Thanks [Klonopin](#)

Klonopin - May 12, 2024, 9:36 am

I forgot to mention, there's absolutely no anti-debugging measures, only control flow and obfuscation techniques in place.

7 - May 13, 2024, 1:42 am

Great thread!
The first 3 places win a place within Fallen.

(as long as no scam reports e.t.c)

newQuery - May 13, 2024, 3:20 am

Beautiful !

I Will be investigating as soon as I wake up

Hackers - May 13, 2024, 4:10 am

I messaged Klonopin a flag & 1 value that I found, but I'm in Fallen & also knew about this ahead of time so I'm not going to reveal anything or keep going on this.

Good luck to all!

Klonopin - May 13, 2024, 9:03 am

Congrats to [AbakBarama](#) for being the first to finish!
