Our reviews are inside. If that's not enough, you can see my reviews here as well.
We've been in the game for way too long.

The guide includes everything that you need to know and more. Not only in regards to OF chatting but also in every other social media platform and how to create and run your own chat team as well. Our chatters have managed to constantly do ratios of 1:20 and we created this guide all 4 of us together. If you visit our telegram server you'll see for yourself.

I don't feel like saying much, because by now you should already know who I am and the value of what I'm selling.

All I want to say is this.

It's expensive. It's directed towards agencies that are making thousands of dollars and need help running and improving their chatting department, not common people and e-whores.

Price starts at 2500\$ and will keep on increasing the more copies I sell to avoid leaks and saturation.

If you believe that this price is expensive then this service, quite possibly, is not for you.

That's all! Thanks for taking the time to read this I wish you all the best ?

I don't see why you would take it any other way.
