Verified and Guaranteed to Work as of November, 2025.

Hello HF Community,

After a period of dedicated development, I'm excited to introduce a lucrative opportunity to a select group of individuals. For reference, over a year ago, I discovered a highly effective method for generating passive income online. This new approach builds upon that foundation, leveraging insights gained from previous experience to elevate our potential earnings to new heights. This method has been consistently delivering substantial returns, ranging from \$2000 to \$5000 or more per month, all achievable through internet-based operations.

Requirements:

To embark on this journey, you'll need:

A computer

Reliable internet access

A commitment of brief but dedicated time every few days to both maintain and scale the operation

A financial investment covering all necessary expenses to kickstart the process. While initial costs are involved, expect a swift return on investment, typically within 2-4 weeks.

What You'll Receive:

Upon joining, you gain access to:

A comprehensive, step-by-step guide meticulously crafted to empower you in generating substantial monthly income

Exclusive access to a network of individuals, websites, and resources crucial for your success in this venture

Support and guidance tailored to your needs, ensuring you're equipped to navigate any challenges that arise.

Price:

Secure your spot today for \$525.

Q+A:

Q: How long until I can expect to make my initial investment back?

A: You will make your initial investment back and profit around \$500-1000 within 2 weeks, if you follow instructions correctly.

Q: How much do I need to invest?

A: Full scalability from the get go will require a few hundred, but you can start with a smaller amount and still succeed.

Q: Will this work worldwide?

A: Yes.

Q: Is it white hat?

A: 100%. Yep.

Q: How much work is required?

A: 1 hour to set up the first 2 days, and then it's autopilot for about 11-15 days at a time. You'll then need to dedicate an additional hour or two after that wait period.

Terms of Service:

All sales are final unless explicitly stated otherwise and agreed upon before purchase.

If you're ready to seize this opportunity or have any inquiries, please don't hesitate to reach out via PM. This marks the beginning of an exciting venture. Let's embark on this journey together towards financial prosperity.

Warm regards,
Confound

Disclaimer:

This guide is different from anything I have previously offered here on Hack Forums, but the method exists within the same territory as a previous method. This previous method still works to this day, and I am still utilizing it. If anyone is interested in a package deal for both methods, which happen to pair extremely well together, I am willing to offer a package deal.

he's been super helpful along the way. He's got me set up to scale after 1 month. Made \$600 first month with very minimal startup costs. Confound has altered the method a bit to reduce start up costs quite considerably.

I'm expecting to start earning a bunch more per month, which is exciting. Confound's depth of knowledge in the area goes a long way. He's clearly well established in this space and knows how to jump start other people's earning potential. I'll report back after another month or two of earnings.

(Aug 31, 2024 09:22 PM)ProTrader619 Wrote: [\[CITE\]](#) Circling back to this thread, want to follow up and give a progress report on this method.

Ended up making \$1500 first month and have been consistently earning since then.

There was some trial and error that needed to happen, with some operational costs involved, but

overall has been positive.

Methods legit and works. Don't see it getting saturated either.

To start off, I really only have been doing this for around ~2 weeks due to me becoming suddenly busy in the first 2 weeks that delayed me being able to start up. In the 2 weeks, I've recouped about half the cost of the method (\$300+) and looking to make more in the future.

I will also have to note that I started at the minimum investment needed just to see how things worked in the first month which is the reason behind the small earnings. This is definitely scaleable to reach the numbers Confound mentions and I am planning to begin scaling soon in order to see bigger returns. I will note that there is some luck involved but I dont see it giving negative returns rather you can have good months and better months.

Confound has been a great sport in my journey with this and has really helped me get running with this, highly recommend it

(Dec 13, 2024 10:27 AM)Pixel Wrote: [\[CITE\]](#) Review: Confound's Passive Income Method My Experience

I've invested \$2,875 into this method, which includes the mentorship fee. After a month of operation, I've grossed approximately \$1,600. While this doesn't yet surpass my investment, the results are promising, especially considering the relatively low time commitment of about 30 minutes daily for maintenance.

Key Highlights Comprehensive Guidance: Confound provides a meticulously detailed guide and exclusive resources that are instrumental in setting up and scaling operations effectively.

Responsive Mentorship: One of the standout aspects of this method is Confound's hands-on mentorship. They're highly responsive and dedicated to addressing questions, which significantly reduces the learning curve.

Scalability: While the initial investment can be scaled depending on your available capital, the returns grow proportionally with the amount invested.

Risks and Considerations Risk Involved: Like any business venture, there is a fair amount of risk. However, following Confound's guidance can mitigate most challenges.

Time to Profit: Although the method is profitable, recovering the initial investment and achieving notable returns requires patience and adherence to the strategy.

Pros Minimal time investment (30 minutes daily after initial setup).

Supportive mentorship ensures clarity and reduces the likelihood of mistakes.

White-hat approach, accessible worldwide.

Cons Requires an upfront financial commitment, which might be a barrier for some.

Success depends heavily on strict adherence to the instructions provided.

Final Thoughts

Confound's passive income method delivers on its promises for those willing to commit time and resources. While there is inherent risk, the mentorship and guidance significantly reduce uncertainty, making this a solid opportunity for motivated individuals. If you're looking for a scalable, relatively hands-free income stream, this method is worth considering.

Rating: ????? A strong option for individuals looking to venture into online income generation with dedicated guidance.

(Apr 21, 2025 07:43 AM)davidrojo666 Wrote: [\[CITE\]](#) I bought the method 11 days ago, today I have already recovered half of the initial investment.

100% Recommended method.

Confound has guided me since day 1 that I bought the method, he has been very patient and has explained everything I have needed to put the method into practice.

As for the method, I can say that it is a great opportunity to generate income, it depends on the discipline and perseverance that you have the amount of money that you are going to receive for it. I have bought several guides in this forum, here we are to earn money and without a doubt with this method I will achieve it, thanks Confound.

This method is as easy as it gets as far as internet income goes. Minimal effort actually. Investment would be in the hundreds. Obviously the more you invest upfront to scale the faster you'll see larger earnings but if you wanted to start off slow you could get away with not having to invest much. There's a sweet spot to it.

Very achievable with my guidance.

Hi all - so vouch for Confound incoming - and initial review below -->

I want to start off by thanking Confound for providing yet again another great and promising online income opportunity. Having tried and succeeded quite considerably with Confound's previous monthly income method, I eagerly jumped on board with his latest method.

The setup process has been nothing short of seamless, thanks to Confound's meticulous instructions and support. It'll take around 24 hours for initial setup.

As someone who values clear and comprehensive guidance, I find Confound's instructions to be very detailed. Even noobs will be able to do this fairly easily. His attention to detail, from selecting the appropriate tools to understanding the nuances of the process, reflects his commitment to my success. Honestly really excited by this so far..

While I'm still in the setup phase, I'm already impressed by the potential returns this method offers. The scalability of the operation, as well as flexibility to adapt to market demands really shows the

potential here.

I like this one too because it's a fairly low effort method - it really shows that if you have the right skills and knowledge, you can really take the possibility of making 'passive' income seriously. After this 24 hour setup, I'll pretty much just be sitting back and watching things develop before I eventually see profit.

One thing I will note is that it'll take a week or two to start seeing profit after recouping on investment. For those who are looking to make your money back tomorrow, this won't be for you. This method is something that can be done for months, if not years to come, with very little variation. So for me, I'm in it for the long haul, making consistent income along the way.

From what I gather, I'll be putting in some manual work again after that 1-2 week mark, albeit fairly minimum. So for those who want low effort, it's not a bad option.

I'll post again when I have results.

(Note: View my history on HF , I have no previous history with confound. This will be an honest post. And I will definitely post back - I know how annoying it is to see customers buy, say they will post and disappear).

Edit: Received materials from Confound. I like it quite a bit. Up my alley of historical experience so I can entirely see the potential for money to be made. I hate to be vague but i don't want to give it away. That being said, I'm going to begin the process and will report back as soon as I've seen returns of any kind. Much love.

how you provide this guarantee exactly?

Yeah, unfortunately that is the case. Lots of members often times disappear from posts.

I don't accept a middleman - I've sold this information now a handful of times without a mm. Why would I all of a sudden change that? If you're worried about getting scammed, don't buy from me. I've built my reputation up over just under a decade to not have to use middlemen anymore. I don't trust anyone on this forum more than I trust myself, aside from staff who don't offer MM services.

As for a guarantee - it's language I use in order to indicate and convey my level of commitment to my customers. I don't give up until we see profit together.

No refunds. I'm not providing a product, or a service. I'm providing information of value. Once the information is exchanged, there's no giving it back to me. You have it forever now. So it's simple - no refunds.

Scaling is a bit of a time / cost reward structure. The more effort you put into scaling the more you'll make. Some folks want the bare minimum but still profit. Has nothing to do with marketing or effort like that. More so just the time spent by your pc for setup and maintenance.

Can't answer the first question yes or no.

As for the second, yes and no. There is selling something, but it doesn't require sales, or marketing, or advertising, or anything like that. You just offload stock, essentially. Easy, 123.

Can you send some more information via PM, I'm very interested in this.

Sleepline - October 22, 2024, 7:12 pm

Coming back to the thread since I said I would to report on how it's been!

To start off, I really only have been doing this for around ~2 weeks due to me becoming suddenly busy in the first 2 weeks that delayed me being able to start up. In the 2 weeks, I've recouped about half the cost of the method (\$300+) and looking to make more in the future.

I will also have to note that I started at the minimum investment needed just to see how things worked in the first month which is the reason behind the small earnings. This is definitely scaleable to reach the numbers Confound mentions and I am planning to begin scaling soon in order to see bigger returns. I will note that there is some luck involved but I don't see it giving negative returns rather you can have good months and better months.

Confound has been a great sport in my journey with this and has really helped me get running with this, highly recommend it

JoseMar - October 23, 2024, 10:13 am

Q+A:

Q: How much do I need to invest?

A: Full scalability from the start will require a few hundred, but you can start with a smaller amount and still succeed.

Q: How much work is required?

A: About 1 hour to set up in the first 2 days, then it's mostly on autopilot for 11-15 days. After that, you'll need to spend another hour or two periodically.

Could you clarify what you mean by "a few hundred"? If I plan to invest around \$200-300, would that be sufficient to get started?

Also, could you estimate how much I would need to invest in total to consistently earn about \$2,500-\$3,000 per month? I want to ensure I have the necessary funds for both the initial purchase and any other expenses involved in supporting the method.

That would be enough to start off, as you go each month, expect to allocate some earnings to get to that level of earning. Expect 1-2 of work before getting to that number

Meaning, if you plan on exclusively relying on earnings and not taking out of your pocket further to re-invest. You could theoretically invest more and get the ball rolling further.

Review: Confound's Passive Income Method

My Experience

I've invested \$2,875 into this method, which includes the mentorship fee. After a month of operation, I've grossed approximately \$1,600. While this doesn't yet surpass my investment, the results are promising, especially considering the relatively low time commitment of about 30 minutes daily for maintenance.

Key Highlights Comprehensive Guidance: Confound provides a meticulously detailed guide and exclusive resources that are instrumental in setting up and scaling operations effectively.

Responsive Mentorship: One of the standout aspects of this method is Confound's hands-on mentorship. They're highly responsive and dedicated to addressing questions, which significantly reduces the learning curve.

Scalability: While the initial investment can be scaled depending on your available capital, the returns grow proportionally with the amount invested.

Risks and Considerations Risk Involved: Like any business venture, there is a fair amount of risk. However, following Confound's guidance can mitigate most challenges.

Time to Profit: Although the method is profitable, recovering the initial investment and achieving notable returns requires patience and adherence to the strategy.

Pros Minimal time investment (30 minutes daily after initial setup).

Supportive mentorship ensures clarity and reduces the likelihood of mistakes.

White-hat approach, accessible worldwide.

Cons Requires an upfront financial commitment, which might be a barrier for some.

Success depends heavily on strict adherence to the instructions provided.

Final Thoughts

Confound's passive income method delivers on its promises for those willing to commit time and resources. While there is inherent risk, the mentorship and guidance significantly reduce uncertainty, making this a solid opportunity for motivated individuals. If you're looking for a scalable, relatively hands-free income stream, this method is worth considering.

Rating: ????? A strong option for individuals looking to venture into online income generation with dedicated guidance.

Hi JoseMar, you reached out to me through DM, but you have your private messages turned off. I've left a review above for you and others in the HF community.

Thanks for the incredibly thorough and accurate review. The pros and cons are summed up nicely.

I'd like to point out the initial investment made by Pixel was something he chose to do. Him and I consulted very closely and I advised him on a number of key decisions. He could have chosen to take a slower route and invested less upfront. But with my consult, he decided to go balls to the wall at the beginning :p

Kudos to him for staying active, staying committed, and being a great partner.

I've grown as well and continued to learn, refine, and master new areas as a result of his thoughtful and pointed questions.

We're all winning together, which is what my goal was from the getgo.

I've also introduced programs to help significantly reduce costs for people starting off.

Great job [SIM-1980240](#), keep it up.

devd - December 26, 2024, 10:46 pm

hey, sending in a vouch for Confound

he's been super helpful along the way. He's got me set up to scale after 1 month. Made \$600 first month with very minimal startup costs. Confound has altered the method a bit to reduce start up costs quite considerably.

I'm expecting to start earning a bunch more per month, which is exciting. Confound's depth of knowledge in the area goes a long way. He's clearly well established in this space and knows how to jump start other people's earning potential. I'll report back after another month or two of earnings.

Q+A:

Q: How long until I can expect to make my initial investment back?

A: You will make your initial investment back and profit around \$500-1000 within 2 weeks, if you follow instructions correctly.

Q: How much do I need to invest?

A: Full scalability from the get go will require a few hundred, but you can start with a smaller amount and still succeed.

Q: Will this work worldwide?

A: Yes.

Q: Is it white hat?

A: 100%. Yep.

Q: How much work is required?

A: 1 hour to set up the first 2 days, and then it's autopilot for about 11-15 days at a time. You'll then need to dedicate an additional hour or two after that wait period.

Disclaimer:

This guide is different from anything I have previously offered here on Hack Forums, but the method exists within the same territory as a previous method. This previous method still works to this day, and I am still utilizing it. If anyone is interested in a package deal for both methods, which happen to pair extremely well together, I am willing to offer a package deal.

Cofound is a very good mentor and guy.

I love it ?

davidrojo666 - April 21, 2025, 7:43 am

I bought the method 11 days ago, but started method 5 days ago. Within 5 days, I have already recovered half of the initial investment.

100% Recommended method.

Confound has guided me since day 1 that I bought the method, he has been very patient and has explained everything I have needed to put the method into practice.

As for the method, I can say that it is a great opportunity to generate income, it depends on the discipline and perseverance that you have the amount of money that you are going to receive for it.

I have bought several guides in this forum, here we are to earn money and without a doubt with this method I will achieve it, thanks Confound.

How often are the payouts with this method? And they're only through crypto?

Is it still as profitable as it was at the beginning ?

Dr_RezfanFutyulo - August 14, 2025, 12:34 pm

Hey, am actually quite interested in this as am looking to do something on the side.

I see the price is 525, what payment methods do you accept?

Also, is this region locked? I am in Eastern Europe.

What are the payout options?

What is the optimal amount of investment (besides the cost of the method) to get to a 2-3k earning / month?

Feel free to start a discussion in PM, as I might be unable to.
Thanks man.

(Oct 31, 2024 06:34 AM)Confound Wrote: [\[CITE\]](#) For those of you that are interested, I've scaled up to about 6k a month atm. Method is still working fantastically. I've made several tweaks and identified new resources since when I first began this method and now its cheaper to operate, and can scale more easily. If you've been considering this, now's a solid time. I may raise prices again soon.

How much time did it take you to scale to that level? Also are any of your students currently making about the same?

(Oct 22, 2024 07:12 PM)Sleepline Wrote: [\[CITE\]](#) Coming back to the thread since I said I would to report on how it's been!

To start off, I really only have been doing this for around ~2 weeks due to me becoming suddenly busy in the first 2 weeks that delayed me being able to start up. In the 2 weeks, I've recouped about half the cost of the method (\$300+) and looking to make more in the future.

I will also have to note that I started at the minimum investment needed just to see how things worked in the first month which is the reason behind the small earnings. This is definitely scaleable to reach the numbers Confound mentions and I am planning to begin scaling soon in order to see bigger returns. I will note that there is some luck involved but I dont see it giving negative returns rather you can have good months and better months.

Confound has been a great sport in my journey with this and has really helped me get running with this, highly recommend it

Hey you left a review some time ago. Just wanted to ask if you could give an update on your progress? Thanks

Is this still working as of Sept. 2025? Please pm me any further details about the method you can. Thanks
