Dude you fuckin rock man. I tried 2 other spotify premium services here on the forums and they both just took my \$\$\$. Obviously gonna dispute their charges, but man am I glad I tried your site. Took like 15 minutes after I sent the \$12 and my account is Premium (again). Fuck Spotify, they used to have a decent free music platform but now it is unusable without Premium imo. Thanks to you & your site, I can actually hear the music that I wanna hear. Thanks a ton man. A+++++ PLUS . Highly recommended.

Hey, we do not offer a 3 month subscription for youtube.

Sonymous - December 15, 2024, 1:40 am

BEWARE.

If you upgrade your account, and the family account they plug you on do not pay, they'll ask you randomly to switch accounts ad lose all your friends on the original account because you can't switch family twice in a year.

They hide that fact beforehand and support then send you to the UPGRADER SITE FAQ (that you would see only after purchasing, no reason to check that site before hand)

"12 Months • Spotify does not allow entering a family more than once a year, so in this case you will need to provide a new account."

=> in what case? there's no indication we would need to change family at any point.

"My subscription ended! What do I do?"

While rare, subscription expiration may occur. If your subscription randomly expires, there's no cause for concern. Simply use the 'Renew' section on our site to make your key usable again and then Upgrade via the 'Upgrade' section to upgrade your account once more."

=> Again, no mention of needing to switch family here.

I definitely do not recommend this service. Support is belittling the problems it might cause and i cite "You're responsible for your own actions, if you prefer not to use a service, just pay for Spotify yourself"

Alright, let me clarify this situation for everyone since it seems OP is trying to paint things unfairly. OP purchased a Spotify Upgrade with a Lifetime Warranty. Unfortunately, after using his account for one month, he was removed from the Premium Family plan. We explained to him that Spotify only allows an account to join a family plan once per year, which means he would need to upgrade a new

account. However, we offered to transfer all of his data from the old account to the new one to minimize any inconvenience.

If you check reviews from our other customers, many have been using our service for 2+ years without issues. And in the rare case that they lose Premium, we always assist them promptly to resolve the problem.

NiXiOM - January 21, 2026, 9:17 am

I have been waiting since November 14th. I have sent three messages because every time i try to update my account on the website i receive an error message. The Telegram support keeps telling me to "try again" each time.

I clearly asked whether i would receive a refund or if i should consider the money lost simply to know where I stand. Once again, the only answer i received was to "try again now its ok" ?

After many years of using upgrade services, this is by far the worst experience i have ever had. The website claims that there are "100 accounts available" in each country, yet as soon as you refresh the page it suddenly goes into "maintenance" or "There are currently no more upgrades available in stock for the desired location, try a different country". If you happen to activate your account at that moment, you are forced to start the entire process from scratch.

There are currently 12 pages on this forum thread service filled with unresolved issues, which understandably raises serious concerns about its legitimacy. Regardless of whether this is a scam or not, the customer support is extremely poor.

This has been my experience going in circles for more than two months.

I waited several days between each reply, sometimes more than a week, only to receive the same answer every time "try again" without any clear response to my questions.

If the issue had been resolved within a few days or even a few weeks, there would have been no problem. But here we are talking about more than two months of going in circles.

When I clearly asked whether a refund was possible at least to know where i stood, it would have been very easy to simply issue a refund given how long this has been going on.

Honestly, that would have solved the issue immediately and i would never have posted a negative review.

I'm actually disappointed that i had to post one, all my reviews on this forum are positive. Even when a service makes me struggle for days or weeks i can understand and still leave a positive review without any issue, that's not the problem here.

What really caused this situation is the lack of communication and proper follow-up from the support team.

I mainly wanted clarity and a minimum level of consideration from support.

Hello, does Spotify still work? Just curious to know how it works as a 'lifetime' upgrade?

Patzan - April 22, 2026, 7:18 am

Purchased Spotify upgrade, got the key and upgrader on site isn't working.
Opened a ticket on discord btw

anatho - April 22, 2026, 9:44 am

There is no confirmation email from the site after order and payment? Didn't receive anything

UPDATE: They don't send the product and don't reply neither on discord nor telegram. Looks like scam.

I sent payment and got nothing, they aren't online, neither here nor on discord or telegram for days. I will report them to PayPal and sellhub

Hey, what is your order-id? We are receiving a lot of tickets daily and it's impossible to solve them all within a few hours.

Hey there

OK, I see. But it has been already four days now. I did not even get an order ID. Did you send me a message today on telegram asking for YouTube login?

Patzan - April 27, 2026, 4:15 am

Seller is a scum. Is not answering on any platform. Already got my refund from Paypal.

STAY AWARE HF MEMBERS!

Bought a key 24h which didn't register, sent multiple pings on Discord for assistance but still hasn't gotten an answer on my ticket even though one of Brox's admins has seen & answered once in the ticket.

I'm not saying it's 100% a scam but at best case scenario they don't care about the customer as soon as the money lands in their account. Be aware.

EDIT: After checking every page of this thread is just filled with similar experiences as mine, i HIGHLY recommend not doing business here and if you've got scammed aswell open a ticket here

on HF.

Hey, we're currently experiencing a high volume of tickets, so response times may be a bit slower than usual. We'll get to your request as soon as we can and appreciate your patience.

I have been waiting a WHOLE WEEK for a YouTube premium upgrade. A few messages on discord and telegram. One time they tried the upgrade, saying it's not working due to region locked. I removed the lock, now again waiting for 48 hours for something to happen

Bowcat - May 1, 2026, 1:59 am

For any potential buyers information it's been half a week and they still hasn't responded in any capacity either here, on discord or on Telegram. Don't buy from here.

paok4ever12 - May 2, 2026, 3:22 am

Quick vouch i got an iptv 1 month worked perfectly buying now 3 months spotify will upgrade after its done really quick delivery ?:)

anatho - May 10, 2026, 3:22 pm

There is really no doubt that this seller is a scam. Waiting for three weeks now for YouTube premium upgrade. They are almost never online on any platform. If they are, they ask you for order ID after you give it to them they disappear and don't reply anymore. They don't give you what you ordered and they also don't refund you.

iloveskype - May 31, 2026, 9:58 am

Purchased a 3 month spotify duo upgrade provided all required details to them over a week ago and they will not reply.

Thankfully I read the comments I was about to buy YouTube but I guess I'll have to hold off seeing as this guy doesn't seem too legit.

Hepa - July 19, 2026, 8:22 pm

I made a purchase, been over 24 hours still waiting for a response. I've opened a ticket on discord and even messaged on telegrams.

barneslad94 - July 20, 2026, 1:16 pm

My Spotify expired after 3 months, currently waiting for it to get sorted...

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for

each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
