?

Hey everyone, trying to be more active on here again. I'm going camping this weekend with my primary gf and I can't wait. I haven't been camping or even slept in a tent in over ten years. I bought a new tent and a set of tent stakes and guy ropes that are 10x better than the ones that came with the tent. I'll share some photos on monday. [CST] I'm turning off my phone as soon as I get there. See ya'll in a few days.

Hi bro, hope you've enjoyed your stay so far on Hackforums!

Where are you going camping? Is it in like a forest / woods? My partner doesn't like camping so I've not experienced it yet! Also.. you have several girlfriends?!
