Thread: [\[HACK GAME\] How many failed NASA attempts](#)

Syndicate - May 24, 2024, 11:42 am

Hey guys, just wanted to create a record here and see who has gotten the most failed NASA attempts in a row. Right now I'm currently at 85 failed NASA "hack" attempts. This screenshot that I have taken shows 83 IN A ROW cause I'm obviously still attempting more and more every 5 minutes.

NOTE: THIS IS THE HACK GAME. GAME. FBI. Don't kick my door down pls

Chung - May 24, 2024, 12:35 pm

Reporting you to FBI as I type.

L?G?ND - May 24, 2024, 12:53 pm

I'm definitely around the 150 mark, perhaps even higher.

630 - May 24, 2024, 1:17 pm

Is there a list / way to check them without counting them manually? Because I am at a lot.

How do u count them? I tried to look for a record of my continuous fail but i keep failing

Jen - May 24, 2024, 1:19 pm

Two times Failed - There is now an FBI file with your name on it.

Just remember that each page is 20 success/failed attempts. So if you see all red on 1 page, that's 20 failed attempts ?

OpSecSurvival - May 25, 2024, 1:15 am

i seem to hit rather often... its odd. some weeks im killing nasa, others nasa got their firewalls intact lol

still the only/best way to get to lvl 50

sad

games not rly fun, it's like an "im bored lemme click this rly quick type shi" for me anyways

wish there was like ONE complete game on here.....ONE lol

slots dont count. i mean like a byte free game

L?G?ND - May 25, 2024, 3:53 am

So after going through 89 pages, I have roughly 1,100 failed NASA attempts. That is way higher than my estimated 150.

I should be awarded the Purple Heart for so many failures. Lmao

Bro... I hope you know that I meant how many NASA failures in a ROW... I should have been more clear ?

I'm also currently at 99 failed NASA attempts in a row.. got to be the worst damn luck

That would make so much more sense. I literally believed I may be the unluckiest person on this forum. lol

Charlie Sheen - May 25, 2024, 10:13 am

Honestly for myself, not that many as I rarely did NASA. I ran tests back in the day on which got more XP per day. Due to the higher success rate, I always received more XP when I did the 16, 23 and 30% jobs. Make sure to do your missions! The missions was a game changer for me in terms of XP.

I originally estimated I would get the award in June 2024. I was about to get it by February 2024 when I began including my missions.

DemonAsylum - May 25, 2024, 1:59 pm

Glad to see earlier in convo you finally got a success again LOL. Here is to hoping it doesn't take anywhere near as long until your next!

Dam you guys must be really unlucky. 9% shouldn't be THAT bad. Im just used to something similar to Hack game which had even worse odds like 1% or even 0.01%. Anyways the most I had was like around 22 I think.

I swear to god, failing 103+ times in a ROW is absolutely insane man. I have the worst luck ?

Jamika - May 26, 2024, 11:24 am

Ok finally i broke the bad luck and won! This cant be right, the percent is very low indeed

Biggs - May 26, 2024, 11:50 am

5 and half pages full of fails, didn't hit the NASA in like 12 days before it started acting normal again. Now I hit every like 10-15 attempts.

I've already had 26 failures in a row right after I hit 2 success in a row... ?

It's 20 per page, so if you look quick and don't see any greens, then there is 20 falls. Ctrl F and you can see the number in the search bar

Told you, the mission EXP adds up when NASA ain't hitting.

Way too friggin many.

Maybe this is something that can be added to Hack Game. A simple stats dashboard so we can see how much time we've wasted and how much we suck.
