Thread: [Convo /Flip Maximum Increased](#)

Omniscient - May 29, 2024, 9:49 am

Max for /flip in Convo is now 25,000 Bytes. Min is also upped from 5->10. Please note that this is subject to change, I may lower it back to 10,000 if I don't like how it's going.

[Nightmare](#) we are officially FUCKED.

Lovely, can't wait to get cleaned at 2,5x the speed.

Omniscient - May 29, 2024, 10:08 am

I tested and works. Turned 100k into 221k in about a dozen or so 25k flips. :)

And yes, it was a test and I gave all the Bytes back.

Who's got the guts to make 25k flips?

I'll done one when my 1000 flip limit is lifted, I'm scared tbh.

Actually it should be possible. I have to look at the code. Something like "/flip count" should work.

What about the amount of flips allotted in a day. Seen a few people last night, not be able to flip anymore after "x" amount of flips.

Definitely, though easier said than done. It's easy to get into a mindset of thinking what you're at isn't "worth" cashing out yet or that you've gotten this far so who is to say you can't run it up just a LITTLE bit more ?
