?nxy - May 29, 2024, 1:05 pm

I'm looking for taste and low cal

If you have any good suggestions I will hug you

Absence - May 29, 2024, 1:35 pm

Hmm maybe I will try a suggestion too, I rarely drink energy drinks myself.

Trump - May 29, 2024, 1:44 pm

You should give a try to Guru drinks. It's my favorites one since high school.

Charlie Sheen - May 29, 2024, 2:34 pm

Alani Nu is really good. My favorite is probably cherry slush. Great if you're looking for low calorie.

Rockstar BOOM whipped strawberry might be the best tasting energy drink of all time. Although this one is higher in calorie.

Monster Rehab Tea + Lemonade is solid.

Not a big fan of energy drinks, they always make me feel too racey.. like my heart is ready to jump out my chest. But either way, good luck on finding the right one for you.

Jamika - May 29, 2024, 2:47 pm

Redbull and sting are good, dont drink it alot tbh too

Chung - May 29, 2024, 4:11 pm

What about coffee? Or do you not like coffee?

OG Green Monster is sooo good imo.

DemonAsylum - May 29, 2024, 6:39 pm

First and foremost I'm currently in the US so that's what this for sure applies to though maybe it can elsewhere as well. Monster Energy Ultra drinks are one of if not the best option I've seen overall. Low cal, low carb, 150 mg of caffeine, 10-15 flavors, and most cans for your money. While they're already usually the cheapest or on par with such at least, they often also have deals going on such as for a few dollars off or like 20-40% off. I just checked and right now for instance it shows this for me at least on most flavors: "Save an extra 20% on your first Subscribe and Save order.". You can also just cancel the subscription right after too if you don't want to get them again automatically X amount of time down the road that you pick for the subscription. Ships from and sold by Amazon directly as well so no random 3rd party involved either.

diiiaz - May 29, 2024, 11:03 pm

I was going to say this as well, the white monster is the best imo.

Monster has a lot of low cal energy drinks and most of them are even without sugar.

Luigi - May 30, 2024, 6:04 am

Yin Yang - May 30, 2024, 7:55 am

Yall are cooked. It's not bad, don't get me wrong. However, there are so many other more unique / heavy flavor ultra drinks by them that are better imo. To be fair though, maybe you guys haven't tried most of them. I've done that before where I just happened to drink X flavor early on and that I fuck with a lot and so I don't bother branching out for a while until I got sick of it. Trust though, there are better flavors for the ultras.

I love the way they taste, but hate the gut rot it gives.

Anyone here tried the h2o ones? They're good when they're slightly frozen almost slushy type.

Blockonome - August 11, 2024, 6:32 am
Redbull will win any day of the year for me!

The Watcher - August 11, 2024, 8:19 am
Burn is the best energy drink.

Shone - August 11, 2024, 8:44 am
If mixing with alcohol, I like to go with Red Bull. Otherwise, I just go for Monster, standard and the white one are great. I also used to order GFUEL and they ship internationally and often have Buy-1-Get-1-free sales, so check them out as well.

FRDepth - August 11, 2024, 3:32 pm

I do not enjoy coffee and instead I get energy drinks to boost my mood.

PappyProxy - August 12, 2024, 5:38 pm
Look for carton milk vendors, new vendors sell for super low and you can get nice quantity perhaps.

Solo714 - August 13, 2024, 9:15 am
cherry slush is a good drink

Purgatory - August 15, 2024, 9:52 pm
I don't drink energy drinks lmao

Snowwy - August 16, 2024, 5:17 pm
I always seem to go back to the good old Redbull. No sugar of course.
