Thread: [Releasing a Public IRC for HF Members to use!](#)

Burger - May 29, 2024, 2:19 pm

Hello All! Recently I have released a IRC Server for the Fallen group here on HF, and I mentioned that I may release access to HF members who are L33T/UB3R or are apart of a Group!

If you are interested in getting access you can PM me or Convo me!

NickServ and ChanServ are working and configured, so you will be able to register your nickname and also a channel of your choosing if wanted.

Join #main, any non-Fallen members are not ALLOWED any access to other channels regarding the group.

Anyone end up showing interest in this? Also given where this is posted, is it geared more towards gaming, like to link up with others for such or?

Ive got a few members that have joined and been on, this is not a Gaming related IRC at all. I mean to each its own however our main usage is for general comms and black/white hat topics and discussions!
