Telegram seems to be getting more and more popular. I'm sure there's plenty of revenue to be made by targeting this platform. Looks like a good service to subscribe to. Good luck with sales!

Prawnster - June 2, 2024, 4:49 pm

Is there any limit on what we can and cannot promote thru your service? Like if I have some general incentive offers and some legitimate offers too, could I promote that through your service? Also do you have any statistics of previous promotions etc - How many people can you reach for the \$50 plan vs the \$25 plan? Say if I wanted to target specifically only USA and UK users? Thanks :D

We promote near enough anything. Blackhat, Greyhat, Whitehat.

The shared plan has about 1600 groups, the vast majority of them are English speaking, a private plan is the same but with more bots and more groups too help promote whatever it is you may be promoting.

If you wanted specifically USA and UK users you'd be better getting in touch for a custom plan! Custom plan's are not always more expensive than private and Shared plans. We can also target users down to citys and towns but this is DM's only not mass forwarding your ad.

looks interesting i might shoot you pm soon. posting to remember.

Got given a 48 hour trial for this service by MDE and gotta say, I was very impressed with the results.

Telegram wasn't one of those avenues of advertising that I had used before but from start to finish, MDE was super helpful with guiding me through the best way to build your telegram channels, helped with improvements that can be made to the channel itself and even went as far as helping me design my ad that was going to be shared about.

He was extremely supportive and answered all my questions I had (I had a fair few because I'd never done it before haha) and I'll definitely be back for a private plan or two in the future ;)

As for the results, in the 48 hour trial he gave me, we hit just over 1.4k views on the post of good traffic that helped me launch my service.

Super impressed, great experience from start to finish!

Ren And Stimpy - June 7, 2024, 7:18 am

Amazing service. Worked as advertised! Boosted our Telegram Channel and increased our sales! 100% worth it! Also [MDE](#) is very easy to work with and provided updates through the whole time he was mass advertising! HQ service and support!

After one week of using this high-quality service, I am thoroughly impressed. MDE is an incredibly professional seller who meticulously researches every detail before even reaching out for information. From our first conversation, I noticed his dedication to understanding my sales thread and strategizing how to advertise my service effectively. MDE provided daily updates and feedback, which was invaluable. I've seen a significant increase in subscribers to my channel in just one week, so I've extended my service for another week. I highly vouch for this hardworking individual.

MDE - June 12, 2024, 4:14 am

Responded too all DM's and thank you too everyone for their vouches and kind word <3

Pancake Boat - June 16, 2024, 5:14 pm

Amazing service and amazing seller experience.

Got a 1 week private plan at first, boosted my sales and OP was more then helpful during the whole process.

He also provided his own opinion on how he would run my ad and also helped improving the text (since I have not ran Telegram Ads before, thus he helped with the overall process)

11/10 experience and I am definenitly extending my plan.

certgod - June 19, 2024, 11:51 am

Honestly love the idea, sending a pm

Great product.

Used it personally for 1 month.

Also user is very helpful. There is a learning curve to avoid detection but its worth it.

I actually purchased the software! Very cool stuff and like I said the user helps you along the way.

Perfect.

I don't really understand the question but generally adult content doesn't do great on Telegram advertising.

I am not looking for TG ads but a telegram accounts that post & talk about my product, something that looks like natural promotion on a few channels.

Do you think you can provide that service?

You'd be better looking on the forum for someone who does custom Telegram bots, our software doesn't cover this.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.
