Wow brother, that was a hot start for you. I got a RATR from red and easily taken down and freagle with garbage stats. I only got a sPyDoS that got a good stat.

Waiting for more eggs drop for my account, hoping really soon I will see a golden egg. ?

sPyDoS seems to be more stronger than blue egg and I like it more that Amethyst.

Maybe sooner or later you will have your first sPyDoS on the battle.

You bet and such a waste of bytes to raise them together with those greens and red eggs.
