Just like earlier.. He sold 450k to Zelos. Made profit from it. Then caught 50k in rains back from it for free.. Then got to watch the rest of the crowd either make or lose them all. Which will result in the winners selling them to him at a bargain, and he will in turn resell them again at full price. All while he gets to watch and catch rains from the crowd.

For me, it's mixed. Typically, it's an unwinding day for me. Where I've been traveling lately, it's more of an exploration day lol.

For me it's normally more of a chill day. Sometimes I'll have a couple of more minor things that I need to get done, but I'll knock those out early on if so and then the rest of the day can just be taking it easy.

Yeah. Might as well have it be more common since the stats aren't any better now. At least we'd get to see more of them. It's my favorite HUM design and so I'd quite enjoy seeing them more often. My final gold I got last season actually hatched one. Stats were pretty bad for a gold quite honestly though they can roll lower now since the balance changes at the start of the year, but regardless it was a freagle so that was cool to see out of a gold for the first time.

Ever since the balancing changes at the start of the year, the gold can roll stats a good amount lower than before. With that, a purple or spider egg can have better stats or in this case the better way to put it is a gold egg can end up with worse stats than what they could provide. Luck of the draw is all.

If it wasn't for me actively using them myself as well (which obviously cuts into what is already minimal ass profit), I wouldn't bother with them honestly. I do generally enjoy having them too, but I'd have no reason to buy them if I was just going to sit on them. Eggs lotto getting disabled?

That would be partially due to the people that would consistently farm eggs with hella posts, many of which were LQ and therefor in SFs, and then sell them in the lotto. Basically just doing that every day or 2. In turn you had people getting lots of bytes from being LQ and doing nothing that benefited the forum while also pushing a lot more eggs into the game, making it all the more P2W. Omni did also say he thinks eggs should only come from posting though and not be able to bought which I was also saying for a long time.

Egg lottos were always lame, but generally just earlier times when the game as well as even bytes were still pretty new, near to no one had the awards, etc, yeah it was cool having the game as active as it was. Regardless of what all went on in the game though, it was inevitable that it would take a hit in terms of players. Hack Game has obviously seen the same, albeit for different reasons.

I wish I had posted a bit more given the bonus bytes days. Eggs I wasn't sweating as much hence why like i said I stopped mainly after the first 2 days or so. Shoulda taken advantage of the extra bytes for some more bytes to blow on HUM stuff or whatever. Oh well though. And yeah I can't cap, I did you a lil dirty ? I own up to that 100%, I did do you kinda dirty. Was mainly 2 things. You going for Grim (who is in the same crew as me) while my not knowing he apparently went for you. I never checked to confirm, but I assume you were telling the truth lol. Then knowing our truce would likely be coming to an end soon anyway. Yeah he's been a lot more busy for a while now and normally just pops on around the same time to do whatever he can / wants to and then hops off for the day. Miss the days of him and some other older members generally being more active on here. I get it though of course. But yeah, the retaliation on your end makes sense in hindsight obviously lol.

You going for Grim (who is in the same crew as me) while my not knowing he apparently went for you. I never checked to confirm, but I assume you were telling the truth lol. Then knowing our truce would likely be coming to an end soon anyway. Believe it or not, I was planning to just tell you and probably in one of the upcoming days that our truce had come to an end and then whatever happens after, happens. Between the above and then seeing a perfect

opportunity to take out 2 of your guys though, I couldn't help myself ?

Eh, if it's legitimate it'll pass. It's just like when [Sky](#) and [Komodo](#) were selling hella cheap bytes with max limits of 1k per transaction to get their businessman award. You too have benefited from people

farming contracts for b rating. Even if you weren't in on it.

Oh you're actually finding seriousness in it haha. I was completely joking. Obviously they aren't farming or doing anything bad, imo anyway. There have been a couple of people that clear as day were essentially farming though to be fair so I get where you're coming from. Selling bytes on the cheap, but at a max of 1-2k for instance. Like that's just blatant imo, but to each their own and if Omni doesn't care than there ya go of course lol. As for myself, I don't think I've had a case where someone has farmed contracts with me like that honestly or more than a few maybe until it either stopped or I thought something was fishy and put a stop to it. No reason to get 1k bytes and then another 1k an hour later. Get a few k in advance or take a walk chief lol.

His days with me are well in the past now it seems. He must have a mega hard on for you because as soon as you started buying, he has only gone to you since and even if I'm online and you're not ? Extreme heat is no bueno.

Yeah this year was HOT HOT, but the big heat waves seem to be leaving. It still gets 90 degrees by mid day.

for sure. Quoted.

(Oct 8, 2024 04:43 AM)Sox Wrote: [\[CITE\]](#) 100% for pumpkin posts last I checked, but I have not visited award goals yet.
Very nice!

I am a fall/winter lover.
Luckily it seems to be cooling down for this upcoming season.
