Dr.MLDS - June 7, 2024, 10:12 am

Focus on progress, not perfection. Strive to get better, but don't beat yourself up for mistakes.

Don't be afraid to fail. Failure is a natural part of learning and growth.

Listen to learn, not to reply. Truly understand what others are saying before responding.

Be kind to yourself and others. Compassion builds strong relationships.

Take care of yourself. Prioritize your physical and mental health for a fulfilling life.
