Thread: [beginner asking for tools and how to start hacking ?](#)

botrat - June 7, 2024, 2:15 pm

i want to start hacking to make a botnet out of my brothers pc ?

Nomad.Null - June 7, 2024, 2:31 pm

That's a hilariously ambitious first project.

<https://github.com/lolsecs/LolSec/blob/master/Botnet%20Bible.pdf>

This is the Botnet Bible with the essential concepts, but you need knowledge in a programming language and basic knowledge of Windows & Linux OS minimum to truly become decent.

There are fundamentals you must understand to begin. Also, be nice to your siblings.

MONEYMEN720 - June 7, 2024, 7:21 pm

I am new as well and i NEED A FATHER FIGURE IN SPAMMING [warn]

botrat - June 15, 2024, 1:08 am

ok i'm good at python and c++ so it shouldn't be a problem ?

i just wanted to say that the link does in fact work and the tutorial are very simple and how do you find this , like i go to the internet 24h and i find only one good text like this because everything here is paid or eittheir scam

Nomad.Null - June 15, 2024, 3:06 pm

Cuz I've been around for a few decades and I learned a few things.

It's why my mentorship is bar-none the best on HF.

botrat - June 16, 2024, 2:36 pm

do you have any method to get infinite email ??

i'm using for a business im doing about snapchat
