The funniest part was when he said we need laws to force people to lock up/secure their guns in their homes. Would that have stopped your kids wife from tossing it in the trash then? ?????.

Sounds like he needs to be locked up.

Too bad he'll get a pardon.

He won't get pardoned unless Biden looses. He can't afford to do it yet.

It will happen after the election, no doubt.

?? and you believe him?? How naive are you? Politicians build their careers on lies.

All politicians are hypocrites. They wouldn't get anywhere if they weren't.

Gun violence has more with mentality and less with guns. The US has the strictest laws in the world and still, people go to life in prison as if they were buying cakes in a store.

I am from ex-Yugoslavia and to be honest high percentage of people still have illegal weapons like AK-s and hand grenades at home but still you won't see such violence in our countries. Murders are extremely rare. We do not have gangs but we do have mafias and they are quite in the shadow.

Wait what? I consider myself quite "knowledgeable" with federal and my state gun laws, they are definitely not "strict". Are they oppressive? I say yes, but strict not so much. Now California and New York are definitely strict yea...
