What kind of night activities do yall like to do, for those of y'all who are free during the night time? If I don't have work or I'm not busy, sometimes I'll hit the casino with my buddy and get drunk n bet on some games of UFC, usually ending up smackin tf outta eachother til like 7am until we pass out haha. What about y'all?

If with friends, same with your buddy else if I am just alone, would probably just hit the books all night and do activities I haven't done for a while because of being too much of a workaholic. ?

Stay up all night read, binge watch or learn new stuff. A new night activity would be going to this forum and other forums every now and then.

Bumface - June 13, 2024, 10:57 pm

Sometimes i'll go for a night walk, enjoy the stars, the cool breeze, the leaves rustling softly in the air, the prada wallets i obtain, the soft grass on the bottom of my feet.

It's great to enjoy nature sometimes.
