Thread: [AltBet's Official Music Song ?! \[NO CAP\]](#)

DashPHP - June 13, 2024, 3:05 pm

To my surprise my good friend [Juoku](#) made me a song using AI for AltBets. (My sports betting tipster platform)

I honestly thought this was very well constructed, it's usually easy to tell what's AI, but I genuinely thought [Juoku](#) composed it himself. Crazyyyy.

I am pretty impressed considering it took him only a few hours to do.

Lyrics ([Click to View](#))

Dreaming big wins tonight
Got my stakes oh so tight
Checking odds on the site
AltBets making it right

Got my phone in my hand
Feeling lucky man oh man
Expert tips every day
I know I'll find my way

AltBets shows me how
Bet smart don't ask me how
Win big gonna take a bow
AltBets know it now

No more guessing in the dark
AltBets hitting the mark
Spinning reels rolling dice
It's your turn to suffice

Numbers dancing on my screen
Everything so clear so keen
Strategy in my brain
Nothing goes down the drain

AltBets shows me how
Bet smart don't ask me how
Win big gonna take a bow
AltBets know it now

X2
No more guessing in the dark
AltBets hitting the mark
Spinning reels rolling dice

It's your turn to suffice

No more

No more

AltBets know it now

Numbers dancing on my screen

Everything so clear so keen

Strategy in my brain

Nothing goes down the drain

AltBets shows me how

Bet smart don't ask me how

Win big gonna take a bow

AltBets know it now

X2

No more guessing in the dark

AltBets hitting the mark

Spinning reels rolling dice

It's your turn to suffice

AltBets know it now

AltBets know it now

No more guessing on my screen
