I am in this scene already & I can verify the method easily & also provide detailed review. Let me know if you want me to do that.

Thanks!

Edit: I have received the vouch copy. Will be adding a review soon.

Edit 2:

I received the review copy for this & below is my honest opinion. Please note, I have actually implemented the method myself & tested it with 1 product.

Presentation: Very Good

Comes with so many screenshots even for understanding simple things. Formatting is good & I don't think there will be any confusion to understand the method.

Method: Very Good

I have applied the given method & managed to purchase a product myself. So I guess that is everything that is relevant here. It is very easy to implement. There are no special skills needed.

Pricing: Okay

I am not very sure if limited sales with high pricing is a way to go with this to be honest. I mean there are many people already doing this even if they are not using the exact same method sold here. But truth to be told, if you set it up & implement it, you will be making money with it if you are willing to put in effort of making a shop etc. You can definitely save up yourself on your personal subscriptions.

PS. This is my personal opinion.

I wish you good luck!

Vouch for this method. I will say that many people on this site have heard of the general idea behind this method, but the site that OP is using I have never heard of before and it seems to be much easier than the other methods I have done in the past.
