Good day dear forum users.

In this article I want to share my method of making money on installations.

We will work with the Payperinst service and it is very simple.

Ref: <https://payperinst.com>

Not a ref: <https://payperinst.com>

(I will be grateful if you register using my referral link)

The point of earning money is to distribute your link to download the file.

I will show this using the example of YouTube.

Let's start:

1. Go to the website: <https://payperinst.com>
2. Upload ANY archive of 3-4 Megabytes (you need a direct link to the file)

3. Select the landing page of your choice and receive a link to the modified file.

Next is the distribution method. We will work with YouTube.

We need to find a suitable video on YouTube. These are cheats and scripts for the popular games Roblox, CS Go and others.

Let's say you found a video for the STANDOFF 2 cheat.

Now we need an interesting program that will download and edit videos and previews automatically.

Software for working with video YTArchiveCollector:

<https://mega.nz/file/aLAVUabl#k25pBJLYXXFQ4FiknU6Umfz2ulia-IYef1mOLObtHZw>

It's simple. Copy the link to the video from YouTube and left-click.

The program will download Preview, Video, Description, Tags and Title into one folder.

It will take some time for the program to modify the video and preview.

And then just upload Video, Description, Tags and Title to your YouTube account and leave a link which we received at <https://payperinst.com>

The more users download your file, the more money you will receive.

Make a lot of videos. Some of them reach the top and gain a lot of views.

Proof of payments:

Thank you for your attention.

You are right. Therefore, you should have multiple accounts. It's best to buy abandoned accounts that are 3-5 years old. They're not expensive.
