Thread: [Help with getting people to use my referral \(FREECASH, literally\)](#)

So, i had the idea to start using their affiliate program and try to refer people to freecash (the website). But i need to refer people, obviously. What black methods would you use to get the most people into there and earn \$\$\$?

Consider YouTube or online forums. YouTube is the most accessible platform where you can reach a large audience.

Forcing people to signup with your ref link with freecash will not benefit you at all as you only get money once they complete surveys or complete game offers. So your bet bet is to ask people to sign up and USE the app / convince people of it.
