BANANA

The most ADVANCED GAME to ever hit STEAM!

The graphics are UNREAL! its SO DEEP story wise, and there's TONS OF ACTION!

lol on a REAL NOTE... guys... i think theres something to be exploited here VERY HARSHLY and needs to be done before STEAM catches on and terminates this entire thing

BANANA ranks #2 on the steam charts, over 800,000,000 million players playing AT THE SAME TIME (surely most are bots)

but the game.... DROPS SELLABLE ITEMS (special bananas) as rewards!!!

And i KIND OF HAVE THE RECIPE!

1hr app is open, click once, u get a common drop, each hour. (AFAIK)

16hr app is open, click once, you get a shot at a RARE drop.

some of the DAMN BANANAS ARE SELLING FOR \$1500+

NO EVEN JOKING!

WHO HAS A RELIABLE AUTO-CLICKER APP THAT THEY KNOW OF? (not asking for a file to be sent, asking for an autoclicker u can go download safely lol)

theres already folks on reddit claiming to have made THOUSANDS in the span of days.

I REALLY want to explore this!

EVERYONE! SHOW OFF YOUR BANANAS! (Puns are welcome lol but at least try the game and get like ONE banana lmao) i can see the dick jokes coming now... ?

heres me running the game so yall know its real, just check the STEAM charts lol! BANANA!

HERE'S my awarded BANANAS!! IT REALLY WORKS! FREE MONEY!! BANANA CLICKIN IS THE NEW MONEY GLITCHHHHHCHCHCHHCHCCHCHCH

The developer of this "game" has devised a method to get rich with minimal effort.

Thousands of people "play" this title in the hope of obtaining rare skins to resell on the Steam market. However, in 99.999% of cases, players only get skins worth 0.03 euros.

Subsequently, players sell those skins... and this is where the developer's method kicks in!

Of the 0.03 euros earned: 0.01 euro goes to the player, 0.01 euro goes to Steam, and 0.01 euro goes to the developer!

Consequently, in the end, the player earns basically nothing, while the developer earns 0.01 euros FOR EVERY TRANSACTION MADE!

Besides this, in this "game" you do absolutely nothing except clicking on the image of a banana. It's easy to see that the developer is using thousands of players to make money effortlessly.

Practical example:

In the game, a skin is obtained every 3 hours. That skin is worth an average of 0.03 euros.

Assuming that each player gets the maximum number of skins in a day, that is $24/3 = 8$, and then manages to sell them, by the end of the day each player would earn:

$0.03 \times 8 = 0.24$ euros, minus the commissions for Steam (0.08 euros) and for the developer (0.08 euros), which makes a net profit of 0.08 euros.

However, if we consider the total number of players (currently 42,000), the developer will earn:
 $0.08 \times 42000 = 3360$ euros per day!

ur spot on!! absolutely all the math i DIDNT want to post lol!!/

BUT! I have gotten a banana worth 0.04 by doing NOTHING, which is profit.

if i get lucky, hell, why not, might make some money. the markets are showing sales and buys, so somethings happening lol

just gotta figure out the 1hr and 18hr thing and set up your auto clicker BC i THINK... this game doesnt require TONS of clicks, only a click after a certain amount of time as far as i can tell.

thats the gist i caught, and i havent clicked more than 10,000 just playing around w my mouses settings lol, and got like 8 bananas

Who and why are people buying bananas though?

OpSecSurvival - June 19, 2024, 9:20 am

I think someone HERE with a mind for CODING could reproduce this.....

I know members here who absolutely could code circles around this DEV, imo obviously i dont know for sure..... but im pretty sure lol

its a marketplace like... loophole, thats actually working, it just caught on.

people buy ones that have dropped OFF the drop list, as they will (or should) rise in value)

Theres so much to this rabbit hole.....

With the right AUTO CLICKER software one could truly wreck this and maybe score big! off a DAMN BANANA lol!!!!

this SCREAMS NFT to me lolol

yo can someone translate this?

THIS is an example of the exploit working in the wild

cant read it tho, someone help out? for the sake of Banana mystery?

I've earned 13 SELLABLE Bananas so far, in less than 24 hrs.... this IS VIABLE!!!

actually, MUDAHAR on youtube has a guide on how to extract the funds via CRYPTOCURRENCY! yes you read that right! STEAM lets you withdrawl in crypto, its crazy!!!! and it makes ALLOT of sense!!!! but even if you just kept the money in your steam account, you couvry ld buy ANY GAME U WANT for a very long time with just ONE super rare BANANNA lol

yes, you CAN extract the funds in your wallet out to a crypto wallet. i havent done it myself, but i saw MUDAHAR do it on his channel, so i know its possible!

Hope some of us make some free money for doing VERY VERY little!!!

theres a trick

every hour u get a common drop, every 16hrs u get a CHANCE at a rare-super rare - unique drop. the uniques are the ones worth \$1500+ and climbing.

what fun!!

WE STILL NEED A GOOD AUTO CLICK PROGRAM TO AUTOMATE THIS!!!!!!!!!!!!!!!!!!!!!!

The only way this is methylphenidate is if it's been put in a pipe haha

In terms of autoclickers they've existed for years for runescape and there's a variety of options so just look at runescape autoclickers and it'll work for your needs on bananas probably

The most ADVANCED GAME to ever hit STEAM!

The graphics are UNREAL! its SO DEEP story wise, and there's TONS OF ACTION!

lol on a REAL NOTE... guys... i think theres something to be exploited here VERY HARSHLY and needs to be done before STEAM catches on and terminates this entire thing

BANANA ranks #2 on the steam charts, over 800,000,000 million players playing AT THE SAME TIME (surely most are bots)

but the game.... DROPS SELLABLE ITEMS (special bananas) as rewards!!!

And i KIND OF HAVE THE RECIPE!

1hr app is open, click once, u get a common drop, each hour. (AFAIK)

16hr app is open, click once, you get a shot at a RARE drop.

some of the DAMN BANANAS ARE SELLING FOR \$1500+

NO EVEN JOKING!

WHO HAS A RELIABLE AUTO-CLICKER APP THAT THEY KNOW OF? (not asking for a file to be

sent, asking for an autoclicker u can go download safely lol)

theres already folks on reddit claiming to have made THOUSANDS in the span of days.

I REALLY want to explore this!

EVERYONE! SHOW OFF YOUR BANANAS! (Puns are welcome lol but at least try the game and get like ONE banana lmao) i can see the dick jokes coming now... ?

heres me running the game so yall know its real, just check the STEAM charts lol! BANANA!

HERE'S my awarded BANANAS!! IT REALLY WORKS! FREE MONEY!! BANANA CLICKIN IS THE NEW MONEY GLITCHHHHHCHCHCHHCHCCHCHCH

SAFE DOWNLOAD LINK BELOW DIRECTLY TO STEAM! but for OPSEC you should just search for the game yourself. my link is SAFE... but this is how they get you.. just sayin

<https://store.steampowered.com/app/2923300/Banana/>

EDIT!!!! I'VE DONE IT! WITH NO ONES HELP! lol!

BEHOLD!!! THE HACK FOR BANNANAS!!!!

[Video: <https://youtu.be/OAT28KQnH9k>]

Yes i Made that video.literally no creativity required, just an original idea the dev did apply KISS principal Keep it Simple, Stupid and it worked.

Go to you username under steam, then go to inventory, then banana game and choose which one to sell.

when you click sell it ask how much you want to list it for and how much the buyer pays based off of the price you list it and the percentage steam takes...

I believe the developers have taken actions to prevent click farms from springing up in fucking Africa (not even joking)

so i would NOT be surprised if they silently stepped in and was like.... nah..... no more rare nanas.

the only way to TRULY make REAL money, is to spin up 100 VM's and make 100 steam accounts, and just virtualize everything in a tiny 200x200 window tiled across a few desktops (i can make several desktops i can switch back n forth thru if that makes sense)

im telling u.... we NEEEEED to figure out a TRIPPLE AUTO CLICKER

BC were only farming at 1/3 the speed of some of the dudes I've seen exploiting this. and making feasible money that they can and did withdrawal in BTC and ETH

Dont give up! it uses 0% resources on ur rig, minus having to have steam open..... but my rig can handle steam chilling in the BG lol

put them all up for sale for RANDOM exorbitant amounts of money, maybe some REALLY autistic person will like YOUR banana and just buy it BC TISM

they DID shut down Cucumber And Banana game, confirmed 0% drop rate with Auto click (OR any click lol) they copied bananas code n now they are just useless game

This game sounds wild! Can't believe a simple clicker game like BANANA is generating so much buzz and actual money. For anyone looking for an auto-clicker, I've had good experience with OP Auto Clicker. It's free, easy to use, and gets the job done without any hassle.

Just a heads-up, though: be careful with this stuff. Steam might catch on and take action, so it's probably best not to invest too much time or money. Has anyone here managed to sell a high-value banana yet?

bruv, the video literally shows and suggests OP auto clicker 3.0 lol but thanks for confirming its validity!

I sold a 0.03c one for actually 0.03c lol

mostly its 0.01c bananas all day long tho.

if u read my first post fully, it explains i figured out the drop algorithm, that may help you out a lil

but if the game is past its first version on steam this may not be true anymore

the Devs say their combatting cheating but i haven't seen any changes :/

and the worst they can do is take the money back out of your steam wallet. steam is ALLOWING this because STEAM gets one PENNY for EVERY SINGLE BANANA and even more for the rares.

the 0.03c bananas go like this
1c to devs, 1c to you, 1c to steam

then RAMP that up for the rares. most valuable ive seen was about \$1900

oh yes, very much so. Steam is purposely turning their eye to this. its that profitable for them i suppose. with that many millions of pennies FLYING in as fast as people can click or run OP auto clicker 3.0 all night long, wake up, refresh, bam, you'll have a pile of new random bananas.

KEY NOTE: You must be "clicking" for a minimum of 18hrs with no gaps larger than 10 mins, so the auto clicker is the only truly viable way to do this, unless your just super lucky like me and my Golden Yeezy Clip Clops ??
