Thread: [What are your thoughts on botting link shorteners?](#)

devound - June 20, 2024, 9:03 am

I am a developer (i think it would take some time to develop it so i may just hire someone to do it quicker) and i have been thinking about making a bot for earning money with link shorteners i could get rotating proxies for it. I'd like to get 10k+ to the link everyday. What are your thoughts?
