Thread: [What Motivated You to Join HackForums?](#)

00wez - June 24, 2024, 4:47 pm

Hey HF Community,

I've always been curious about the diverse backgrounds and motivations that bring people to HackForums. It's such a unique place with a wide range of skills and interests.

What motivated you to join HackForums?

Feel free to share:

How you discovered HackForums

Your main interests or goals when you joined

Any memorable experiences or milestones since you became a member

I'll start: I joined HackForums to learn more about cybersecurity and ethical hacking. The community has been incredibly helpful, and I've picked up a lot of valuable skills along the way.

Looking forward to hearing your stories!

Cheers,

00wez

Welcome back! It's great to see you engaging after all this time. What brings you back to discuss earning opportunities online? I'd love to hear your thoughts or any experiences you've had with similar topics!
