Looking back at your childhood what was your favourite cartoon bonus points if its not very well known!

TooBurnt - June 26, 2024, 10:23 am

When I think of favorite childhood cartoons scooby doo comes to mind. Can't really think of any other ones I watched as a child.

When I think of cartoon network, one of the main ones that always comes to mind first for me is Ed, Edd n Eddy. Don't get me wrong though, there are multiple others right alongside it which I loved, were super popular, and just as good.

Scooby Doo is a classic and it was good, but I feel like I was never that into it honestly.

Gargoyles and Darkwing Duck were my two favorites as a kid, I've been trying to get my son into those shows but he's so stuck on watching YouTubers. Dragon Ball Z also but I still watch that to this day.

some things on YouTube can be very nice to watch but it depends if i was to have a child i would never want them watching those shitty content farm creators which pump out content which just rots their brain. but i think watching actual shows stops people having a shorter attention span.

EmperorZurg-1 - June 26, 2024, 8:38 pm

Adventure time was something I always watched or Steven Universe.

Legit can't compare anything to the Cartoon Batman/Superman from the late 90s/early 2000s.

You had no idea whether the episode was going to be grim or uplifting.
Both cases, you in for the some fun.

imo, that's the best Batman adaptation.

neboo1 - December 15, 2024, 8:22 pm
