Thread: [New Robinhood Crypto Bonus \[Minimum 39EUR - EU ONLY\]](#)

unknown - June 27, 2024, 4:47 am

Robinhood bonus got modified, so I decided to make a new thread. I think it's much better now.

Referral link: https://join.robinhood.com/eu_crypto/kamiles-34b56a/

Any questions dont hesitate to DM!

Some insights:

You will need 31 EUR to deposit from your bank account (you will be able to withdraw around 40 EUR after doing learn and earn rewards INSTANTLY) BUT...

The Crypto bonus you will get (minimum 30 EURO up to 1 BTC, usually around 50 EUR) you will need to hold that for 180 DAYS. I suggest you to invest that in USDC, because Robinhood gives extra 15% for holding USDC. I repeat, you can withdraw your Deposit + 9 EUR from Learn and Earn INSTANTLY, you only need to hold the bonus you receive.

Chances of getting bonuses:

98% of eligible customers who satisfy the applicable eligibility criteria set forth above will receive €30 of BTC,

1.9% will receive between €40-50 of BTC,

0.099% will receive between €50-60 of BTC,

0.001% of participants will receive between 0.5 and 1 BTC.

Guide:

Open the link and sign up, complete KYC, if it asks for TIN - it's your personal number, if you don't have it you can just skip. After signing up deposit 31 EUR from your bank (deposits and withdrawals are instant from Revolut, Wise or any other banks that support SEPA Instant). DO NOT FORGET TO ADD REFERENCE NUMBER AS A NOTE!!! After receiving deposit, go ahead and buy & sell bitcoin once and you will receive bonus up to 1 BTC in your balance. Then scroll down in the app and you will see Learn & Earn, where you can earn extra 9 EUR for answering the quiz.

Learn and Earn answers:

USDC:

What is stablecoin? A crypto "pegged" to an asset

What is true about USDC? It is accessible worldwide

When can USDC be used? Anytime

What are two types of stablecoins? Algorithmic and fully reserved

AVAX:

What's Avalanche? A scalable blockchain platform

What is AVAX? Avalanche's native token

What are Avalanche's three blockchains? C-Chain, X-Chain, and P-Chain

What's a Subnet? A group of validators

What is being built on Avalanche? Both of the above

BTC:

What makes BTC scarce? A limit to how many can be created
What can you do with BTC? All of the above
How many BTC will be rewarded to miners after the expected April 2024 halving? 3.125
Roughly how often are new blocks mined on the Bitcoin blockchain? Every 10 minutes
After April 2024, when is the next projected halving? 2028

Enjoy and thanks for your time!

Sotos - June 30, 2024, 11:31 am

Thank you, finally an EU offer!

It still works, updated the link ? enjoy

jellyhat - November 18, 2024, 4:45 pm

does this still work? When opening the link it shows Kamile invited you to get 10\$ bitcoin as a fixed rate or you can get more?
