1.) Very simple.

Convo any leader, donate 500 bytes to them, then go to the main HF Convo. Type either 1 or 2, and then the leader will type "/roll 1:2", if it rolls the number you said then you will be added to the group.

If it is not the number you said then you get nothing. No refunds will be given. Ever.

All members will be removed every 3 months.

Next Members Purge Day: 16th October 2024

No one except leaders will remain after those days but you are welcome to rejoin using the 500 byte coin flip entry.

Group Leaders in alphabetical order:

[mention=5051324]

[Immortal](#)

[Lavish Living](#)

[N](#)

[StuffSneak](#)

Select any one who is active/online & go for it!

If you fail, you can go again till you get in. 500 Bytes Coinflip every time.

Notes:

Coinflip members are not allowed to use [Gamblers] prefix/tag for their threads directly.

Follow all group & general HF rules.

You can be kicked from the group at any leaders discretion if they seem fit.

You can be kicked from group if you have active deal dispute.

Since they clean swept Eden I suppose I'll flip until I get back in here. I liked Eden so much better though. The aesthetic was unmatched. The things I sell and operate around are widely gambling based though so maybe makes more sense for me to be here.?
