Thread: [Social Media Site Beta Test - Benji the Bear](#)

Syckniss - July 18, 2024, 11:32 am

A friend of mine created this website and it is in beta testing, so if you make an account, let me know the name of it and I will tell the owner to added free Honey Drops to your account for testing... The website is not fully done, but I'm wondering what you guys think of the general concept?

Honey Drops are the on-site currency... so essentially one honey drop equals \$1... you feed Benji the Bear Honey Drops to make him either relay messages, gifts, say things to people via email or Instagram or on site using the public profile page... you can also put your public profile page in your bio or share it with friends so that they can both unanonymously and anonymously send you physical gifts to your address without ever knowing or seeing your address...

USAGE IDEAS:

- Deliver and send users gift card ecodes anonymously.
 - Send bad news through benji.
 - Send postcards.
 - Send stickers.
 - Send a rose.
 - Deliver fake flowers, real flowers.
 - Anonymously tell your crush at school something.
 - Send someone a special reminder.
 - Link your social media and allow people to send you physical and digital gifts!
 - Create a profile page and send it to your [BRAND NAME REMOVED] date so he can send you items without knowing your address!
 - Keep Benji the Bear as the middleman!
 - Send a thank you postcard anonymously.
 - Receive fan mail.
 - Live stream and play messages that your fans send you live!
- [www . benjithebear. com](http://www.benjithebear.com)

Benji the retard should be the name of the website!

Just a suggestion

What if I want to deliver good news? Is only bad news allowed. Thanks

Live stream and play messages that your fans send you live!

What if the messages aren't live?

I hope that the project becomes successful.

:~)
