Thread: [Nebula's Newest Exchange Thread - Zelle / Apple Pay --> BTC/Any Crypto](#)

Nebula Sunrise - July 20, 2024, 1:18 pm

Hi guys, I'm back after a long hiatus of job hunting, professional poker playing, and other degenerate activities.

I will be offering an exchange service for the following payment forms and will be accepting crypto offers in exchange for other payments as well.

~ Behold, my exchange thread ~

If you have any questions regarding my rates, or if I accept any other forms of payments, please feel free to PM me and we can negotiate a deal or talk about something else.

Also, I will likely say no to other payment platforms such as CashApp, Paypal, and Venmo as those accounts have been long locked due to the volume of exchanges I've had in the past.

Also, If you would like to see my previous sales threads, please have a look at them below :)

1st sales thread when I was a beginner at exchanging -
<https://hackforums.net/showthread.php?tid=6075111>

& my 2nd sales thread when I was a more experienced trader with over \$50k+ in transactions! -
<https://hackforums.net/showthread.php?tid=6081369>

As you can see, I have been exchanging on this platform for a very long time and I will try my best to do so again.

As I said, please feel free to send me a PM if you have any questions regarding the forms of payment that I accept or if you would like to use another form of payment that I may not have listed.

As always, thanks for your time and I hope you guys have a good day!
