Thread: [Blackhat Methods To Make 1,500\\$+ In A Week!](#)

Wispr - July 22, 2024, 6:56 am

Hello HF It's me vibes as many of y'all know I've been apart of the hf community since 2016 and since then I have been involved in the blackhat community. Now today I'm going to be selling two blackhat methods to make atleast 1500\$ Within a week. You will need about 100\$ to do the first method. And about 50\$ for the other. With both methods you can easily make 1000\$ in a week. The first method is more based on making actual cash and there are two different variations of the same method. The second method involves being able to rent out a luxury apartment with only 50\$ in resources needed. Can provide proof.

Price for both of these methods will be

200\$ for first two buyers

250\$ for the next two buyers

300\$ for the last 4 buyers. Then no more copies will be sold. You can contact me on telegram

@cupraaa3 for any questions.

I'm interested, both methods sound quite good.

How much estimated time for setup?
