Thread: [Best RAT's for current windows versions](#)

kyanbarth330 - July 22, 2024, 9:17 am

Hello all, Im having a question about what you guys think is the best rat's for windows 10/11. Preferrably free with lots of functions. Any answer will be appreciated. thanks!

Binance - July 22, 2024, 12:57 pm

hahaha.

Free and lots of functions don't often come with the "practical" or "adequate" tag associated with them.

Quasar, DCRat or aSync are your .net options.

The most up-to-date free RAT would be [Xeno RAT](#). It appears it has last been updated 5 months ago.

globalroot - July 23, 2024, 12:16 am

Orcus, would say. Even though it's last updated before Windows 11 came out, it still goes strong and supports it.

Free Open Source:

Xeno (Better than most paid rats and actively updated by Moom)

Async

Quasar

DcRat (Async with worse GUI but more features)

Closed Source:

Orcus (Dead, functional cracks exist)

(Alive very expensive, functional cracks exist)
